Use this remarkable medicine when you feel the first symptoms coming on and you can be absolutely certain of a cure. It is always best to prevent the actual stroke of paralysis or insanity, and this great remedy will certain, y ward it biff. The remedy is purely vegetable and harmless and drugglists keep it for bi. The Hawaii Revolution

The position of the Administration in regard to the revolution in lawni is thus outlined in a despatch from Washington to the New York 1970m. The news of the resolution was not a surprise in Administration circles. The attitude of the I nited States toward the autonomy of the Hawaiian Government has been explicit H. Hoberts, situated in intres of and pronounced for inner years So long Ohio and Boynton stricts, 0.33 as the people maintained their own form of government the United States has been lty Such a state of afficirs was a one time anticipated when Mr. Blaine was 1830y for occupancy a joi 1 Janua y Comby informed the State Department of what was being done to make our reciprocity treaty of little value between the islands and the United States. On that occasion Mr Blaine Instructed Mr. Comly that "the Government of the Buited States will not be unobservant of ts rights and interests, and will be neit ier now illing nor unprepared to support the Hawaiian Government in the faithful discharge of its treaty obligations,"

The question now confrorting the Pres ident is whether the interests of the Onited States do not demand immediate interven-tion in the affairs of Hawsii. Hitherto out aim has been to maintan their indeendence simply as a duty oth to Hawaii and the United States. Mr. Blains, in another despatch to lar. Comiy in November, 1881, outlined the policy and said: "It armly believes that the position of

the Hawaiian Islands as the kev to the do minion of the American Pacific demands their neutrality, to which end it will burpestly co-operate with the native Govern ment. And if, through nay cause, the maintenance of such a position of near trality should be found by Hawaii impracticable, this Government would then unhesitatingly meet the altered situation by seeking an avowedly American solution for the grave issue presented "

Annexation will certainly be encouraged by Mr Harrison if the a atement of missioners now on the why to this city is confirmed. There is no other course left for our Government to follow If the everthrow of the kingdom is complete and the Queen has no longer any authority in the islands, then the "altered t turred at Washington vesterday, but situation has come to pass, which Mr the in uriter were in everythty and town. Sleight of Hand Poisoning A very curious item in toxic dozical lore I chanced to light upon may be called the feat of poisoning by sl-light of hand You wers lealous of a lady and you wished to ki I her Well you asked her to lunch, and you caused a very nice peach to be served at descert. You out the finit with a golden knife, one side of the blade of which was endued with a deadly poison. You presented the poisoned half of the peach to the lady who are it with much relish and then dropped down dead

The wholesome hal you are yourself, The wholesome nat you are yoursen, and laughed in your sleeve and went on shong more peaches for the ladies of whom you were pealcus—till you were found out and by ken on the wheel Abe there's the rub' What ugh old times we might have to be sure but for that plaguey contingency of being found out.
